

MINISTER OF NATIONAL DEFENCE

Mariusz Błaszczak

**LETTER TO THE PARTICIPANTS OF
THE CELEBRATIONS OF THE 20th ANNIVERSARY
OF MULTINATIONAL CORPS NORTHEAST**

Multinational Corps Northeast was established 20 years ago thanks to the joint efforts of Denmark, Germany and Poland. Its establishment and 20 years of operations have proven the Corps' profound significance as an element of the NATO force structure as well as a forum for security cooperation.

The Corps is very important for all of us. It represents common political and military efforts to increase NATO capabilities and security of our region. This multinational unit does not only perform military tasks but also enhances political cooperation and fosters close relationships between the participants of this great project.

Let me thank and congratulate all those who have ever been involved in the establishment and functioning of Multinational Corps Northeast. It is our common great achievement which confirms how significant our cooperation is and shows the opportunities which arise when we take joint actions for our security.

Respectfully,

Mariusz Błaszczak
